For Children

Green Thumb Day
Tuesday, 7/2 @ 2:30 PM

Join Sandra in the Blanchard Room and do a little gardening.

Family Story Time Wednesday, 7/3 @ 10:20 AM

USEPA EVENT AT ALLIED LEATHER TANNERY

The U.S. Environmental Protection Agency (USEPA) will hold a press conference at the Allied Leather Tannery site on **July 10th** at **1:00 PM**. The purpose of the event is to announce the latest round of EPA Cleanup Grants for New Hampshire. Entities receiving funds include the Capital Regional Development Council (CRDC) for capitalization of their Brownfield Revolving Loan Fund and Grant Program. This will be the second installment of EPA funds awarded to CRDC in the past two years. (The CRDC program has provided funding for cleanup of the Tannery site, which will begin around Labor Day.) The event will feature remarks by USEPA Region One Administrator Curt Spaulding. It is anticipated that members of the NH Congressional delegation will also be in attendance. The public is welcome to attend.

DOWNTOWN LIGHT FIXTURES

City staff is working with the Downtown Complete Streets Project Design Team to have two mock-up light fixtures installed within the downtown for review and comment by the public. The two fixtures will be installed on Tuesday, July 2nd, about 60 feet apart, along the sidewalk curb area on the west side of North Main Street, in front of Citizens Bank. The fixtures will remain in place for one week for public evaluation. Please check them out, particularly at night, and submit your comments via the project website, www.concordmainstreetproject.com.

MEMORIAL FIELD PARKING LOT RECONSTRUCTION

The contractor has replaced a drain manhole and installed some drain line and a new catch basin in the Memorial Field parking lot. They have also reclaimed the parking lot and will be bringing in more reclaimed asphalt to grade the parking lot. They will fine grade early next week and base pave, weather permitting, prior to the July 4th celebration. The week of July 8th, again weather permitting, curbing will be installed, structures will be raised, and finish paving and striping will occur.

PAVEMENT/SHIM OVERLAY PROJECT

The contractor has completed all of the final overlays, except for Lake Street. As soon as weather permits, this will be done; followed by completion of all driveway tie-ins and shoulder gravel.
